

MARK GAD ANNAN

Software Engineering Undergraduate

SQL (MySQL & PostgreSQL) | MongoDB Database Management | Data Cleaning and Preprocessing | Data Visualization (Tableau & Excel) | System Analysis and Design | Software Project Management | C Programming | Microsoft Excel (Advanced Functions) | Algorithm Design and Analysis | Open-Source Software Tools Utilization

Tel : +254 719375039 | Email : gadmark22@gmail.com | Location : P. O BOX 3036-30100, Eldoret, Kenya

PROFESSIONAL PROFILE

Detail-oriented and results-driven software engineering undergraduate student with knowledge in data analysis, software development, and database management. Proficient in SQL and MongoDB, with foundational knowledge of JavaScript and C programming. Demonstrates strong capabilities in data cleaning, visualization (Tableau), and software project execution. Skilled in system analysis, software project management, and open-source tool utilization.

Career Strengths

- **Problem-Solving Skills:** Proficient in identifying and resolving technical challenges in software development and data analysis, with a focus on improving system functionality and user experience.
- **Communication Skills:** Adept at articulating complex technical concepts and project requirements clearly to both technical and non-technical audiences, supporting seamless project execution and collaboration.
- **Teamwork and Collaboration:** Experienced in working collaboratively on group projects and coursework, including system analysis and software design, contributing to successful project outcomes.
- **Interpersonal Skills:** Builds positive working relationships with peers and mentors through open communication, and a proactive learning approach, fostering a productive and engaging environment.
- **Leadership Skills:** Demonstrated initiative in project-based learning, taking ownership of tasks and contributing to key components such as system architecture and data structuring in team projects.
- **Adaptability and Flexibility:** Quick to grasp new programming languages, frameworks, and dynamic learning environments and adjusts effectively to evolving project requirements and technological advancements.

EDUCATION

Bachelor of Science in Software Engineering | 2021 – Present

The Co-operative University of Kenya, Nairobi

Kenya Certificate of Secondary Education (KCSE) | 2017 – 2021

St. Joseph Boys High School, Migori County

LANGUAGES

- English -Proficient
- Swahili- Native
